What is NMEA Career Day?

Career Day is a new event sponsored by NMEA to highlight college pathways and employment opportunities available to high school students in grades 9-12 interested in exploring a life-long passion for music by making connections with respected performers, artists and educators in the field beyond music education and music therapy.

Students will participate in break-out sessions and engage in interactive workshops with meaningful discussions intended to guide and inspire. The impact of this day will leave students feeling knowledgeable and empowered with memories that will influence post high school decisions.

*If you can **dream** it you can **be** it!*
